

# Rohit Kumar Suman

## Senior Software Engineer

Hyderabad, India | +918360188318 | [nnrohu@gmail.com](mailto:nnrohu@gmail.com)

[Github](#) | [Linkedin](#) | [Portfolio](#)

## Professional Summary

Senior Software Engineer with over **6 years of professional experience** specializing in **Frontend** development and delivering high-quality, scalable, and innovative software solutions. Proven expertise in managing **large-scale software engineering projects**, supporting deployments and integrations, and leading cross-functional teams. Skilled in mentoring junior developers and adept at leveraging emerging technologies to optimize user experience and application performance. Looking to contribute to a dynamic and challenging role in software engineering.

## Professional Experience

### Engineering Lead

**Persistent, Hyderabad | October 2024 – Present**

- Led integration of agents for platform and applications, enhancing seamless data collection.
- Resolved pricing discrepancies caused by query reloads, optimizing cost efficiency.
- Improved UI for integration and agent tabs to enhance user accessibility.
- Dockerized tiles for efficient staging and faster deployment.
- Enhanced UI/UX for new user onboarding through Instant Observability features.

### Senior Software Engineer

**Helius Technology, Hyderabad | September 2023 – October 2024**

- Supported linting and commit message rules to ensure uniform project guidelines.
- Identified and implemented workflow optimizations to accelerate deployment timelines.
- Secured React Native apps by preventing overlay, screenshot capturing, root access, and debugging.
- Added features to prevent reverse engineering, tap jacking, and unauthorized control.

### Senior Software Developer

**MyOperator, Noida | September 2022 – March 2023**

- Enhanced UI/UX by adding advanced sorting and filtering functionalities.
- Migrated codebase to TypeScript to reduce type errors and improve maintainability.
- Resolved audio playback issues during multi-screen navigation.

### Mobile Developer

**Veative Lab, Noida | August 2019 – August 2022**

- Led the development of reusable components and established an optimized project structure for scalability.
- Integrated video conferencing, AWS authentication, Firebase Remote Config, and payment gateways.
- Developed a native module for Unity Player integration with Android and iOS.
- Secured the application against proxy access, credential tap jacking, and overlay threats.

### Android Trainee

**CTD World, Noida | December 2018 – May 2019**

- Completed six months of Android development training during the final year of college.

## Education

- **B.Tech in Computer Science and Engineering**

## Key Skills

---

**Frontend Development:** React Native (Expert), React (Competent), Next.js (Competent)

**Programming Languages:** JavaScript (Expert), TypeScript (Competent), Java (Proficient), Kotlin (Competent)

**Testing Frameworks:** Jest (Proficient)

**State Management:** Redux (thunk/saga) (Expert)

**DevOps:** CI/CD (Proficient), Docker (Beginner)

**APIs and Databases:** REST APIs (Expert), JSON (Expert), SQLite (Expert)

**Software Development Practices:** Component-Driven Development (Expert)

## Languages

---

**English** - Proficient

**Hindi** - Expert

## Software

---

Jira

Git

Slack

Teams

Xcode

Android Studio

## Projects

---

### [LaunchMyCareer](#) - ***Veative Lab***

**Description:** A career success platform offering immersive tools for career discovery and potential unlocking.

**Tech Stack:** Android, iOS, Kotlin, Java, React Native, TypeScript, Jest, Jira, Confluence, Git

### [Heyo](#) - ***MyOperator***

**Description:** A digital phone line for small businesses to efficiently manage and distribute customer calls.

**Tech Stack:** Android, iOS, Kotlin, Java, React Native, TypeScript, Jest, Jira, GitLab

### [SingLife](#) - ***Helius Technology***

**Description:** A financial services platform providing innovative, tech-enabled solutions for financial freedom.

**Tech Stack:** ReactJS, Next.js, TypeScript, Storybook, Jest, Bitbucket, PDF rendering

### [New Relic Catalog Elixir Service](#) - ***Persistent***

**Description:** Enhanced observability platform features, focusing on integration and seamless data

visualization.

**Tech Stack:** NerdGraph, NRDB, Storybook, Playwright, Docker, ReactJS, TypeScript, NR1, NRQL
